

Inca One Gold Corp. (TSX-V: IO) is a Canadian based mineral processing company operating two fully permitted, gold ore processing facilities in Arequipa, Peru. Chala One SAC, the company's first facility is a fully integrated, 150 tonne per day gold ore processing plant. Koricancha is the company's newest gold ore processing facility, also a fully integrated, 350 tonne per day processing plant located 47 miles north of Chala One. Over the past 4 years Inca One has an established track record of production and sales from the servicing of government permitted, small scale miners in Peru.
