

INCA ONE ANNOUNCES RESIGNATION OF DIRECTOR

VANCOUVER, BC – January 14, 2016 - INCA ONE GOLD CORP. (TSX.V: IO) (“**Inca One**” or the “**Company**”) announces that Robert McMorran has resigned from his position on the Board of Directors of Inca One effective January 4, 2016.

The Company would like to extend its appreciation to Robert McMorran for his contribution and dedication as Board Member over his tenure. The Company is in the process of evaluating a replacement board member.

Mr. Edward Kelly, President and CEO of Inca One, commented, “we appreciate the professional nature, and recognize the considerable value that Robert has contributed to Inca One over these past five years in establishing us as a leader in this sector. We wish him the very best in the future.”

About Inca One Gold Corp.

Inca One is a Canadian-based mineral processing company with a gold milling facility in Peru, servicing government-permitted small-scale miners. As part of the terms of the original purchase agreement for the Chala, Peru processing facility, Inca One has an agreement between its wholly owned subsidiary, Chala One SAC, and the seller and initial permit applicant, to operate under the umbrella of formalization until the successful completion of all the environmental and operating permits. Peru, a highly mineral-rich country, is one of the world's top producers of gold, silver, copper and zinc, with substantial production coming from small scale miners who need government permitted milling facilities to process their mineral (such as the Company's Chala One Plant).

On behalf of the Board of Inca One

Statements regarding the Company which are not historical facts are "forward-looking statements" that involve risks and uncertainties. Such information can generally be identified by the use of forwarding-looking wording such as "may", "expect", "estimate", "anticipate", "intend", "believe" and "continue" or the negative thereof or similar variations. Since forward-looking statements address future events and conditions, by their very nature, they involve inherent risks and uncertainties. Actual results in each case could differ materially from those currently anticipated in such statements. Except as required by law, the Company does not intend to update any changes to such statements.

This news release deals only with the Company's Chala plant, which is an industrial project. This presentation does not deal at all with the Company's sole mineral exploration property, the Corizona property. Investors should note that no resource has been established on the Corizona property and all of the material currently being processed at the Chala plant is received from local small-scale mining operations.
