### **NOTE 1 – NATURE OF OPERATIONS**

SUB Capital Inc. (the "Company") was incorporated under the laws of Canada on November 9, 2005. On November 25, 2009, the Company consolidated its capital stock on a ten-for-one basis. All share and per share information contained in these financial statements reflect the post-consolidated share numbers.

Effective September 5, 2008, the Company was designated as inactive and its listing was transferred to the NEX Board of the TSX Venture Exchange ("Exchange"). On June 25, 2010, the Company entered into an option agreement with Unity Energy Corp. ("Unity"), a public company incorporated under the laws of the Province of British Columbia and listed on the Exchange, pursuant to which the Company may acquire a 75% interest in Thorburn Lake Property located in Saskatchewan (Note 7). The transaction constituted as the Company's Change of Business under the policies of the Exchange. On September 23, 2010, the Company received Exchange acceptance of its Change of Business and effective September 24, 2010, the Company's listing was transferred from the NEX to Tier 2 of the Exchange.

The Company is in the process of exploring its resource property and has not yet determined whether this property contains reserves that are economically recoverable. The Company's ability to continue as a going concern and the recoverability of the amounts capitalized for resource properties and related deferred exploration expenditures are dependent upon the ability of the Company to raise additional financing in order to complete the acquisition, exploration and development of its resource properties, the discovery of economically recoverable reserves, the attainment of future profitable production or proceeds from disposition of the Company's resource properties. The outcome of these matters cannot be predicted at this time.

These financial statements have been prepared in accordance with generally accepted accounting principles applicable to a going concern, which assumes that the Company will be able to meet its obligations and continue its operations for its next fiscal year. As at January 31, 2011, the Company had not yet achieved profitable operations, has working capital of \$155,264 (April 30, 2010 - \$337,382), accumulated losses of \$4,550,971 and expects to incur further losses in the development of its business. The Company has prepared a budget for its cash flows and management expects that it has sufficient liquidity and additional financing will be available to meet its obligations for the next twelve months. The Company will be required to raise additional capital in order to make option payments, incur expenditures to maintain its option to acquire an interest in the Thorburn Lake property and to fund working capital requirements in the long term. However, there can be no assurance that the Company will be able to obtain additional financial resources necessary and/or achieve profitability or positive cash flows. These financial statements do not give effect to adjustments that would be necessary should the Company be unable to continue as a going concern and, therefore, be required to realize its assets and liquidate its liabilities and commitments in other than the normal course of operations, and at amounts different from those in the accompanying financial statements.

### **NOTE 2 – BASIS OF PRESENTATION**

These unaudited interim financial statements have been prepared in accordance with generally accepted accounting principles ("GAAP") in Canada. They do not include all of the information and disclosures required by Canadian GAAP for annual financial statements. In the opinion of management, all adjustments considered necessary for fair presentation have been included in these financial statements. The unaudited interim financial statements should be read in conjunction with the Company's audited financial statements including the notes thereto for the year ended April 30, 2010.

The accounting policies followed by the Company are set out in Note 2 to the audited financial statements for the year ended April 30, 2010 and have been consistently followed in the preparation of these financial statements.

### **NOTE 3 – ADOPTION OF NEW ACCOUNTING STANDARDS**

Effective May 1, 2010, the Company adopted the provisions of the following new Canadian Institute of Chartered Accountants (“CICA”) accounting standard:

#### **Fair Value Hierarchy**

In 2009, the CICA amended 3862, Financial Instruments – Disclosures, to include additional disclosure requirements about fair value measurement for financial instruments and liquidity risk disclosure. This amendment requires a three level hierarchy that reflects the significance of the inputs used in measuring the fair value as follows:

- Level 1 – Unadjusted quoted prices in active markets for identical assets or liabilities.
- Level 2 – Inputs other than quoted prices that are observable for the asset or liability either directly or indirectly.
- Level 3 – Inputs that are not based on observable market data.

The amended section relates to disclosure only and did not have a material impact on the financial results of the Company.

The classification of the Company’s financial instruments within the fair value hierarchy as at January 31, 2011 is included in Level 1.

### **NOTE 4 – FUTURE ACCOUNTING PRONOUNCEMENTS**

#### **a) Business Combinations/Consolidated Financial Statements/Non-Controlling Interests**

The AcSB issued CICA sections 1582, *Business Combinations*, 1601, *Consolidated Financial Statements*, and 1602, *Non-Controlling Interests*, which replaced sections 1581, *Business Combinations*, and 1600, *Consolidated Financial Statements*. CICA 1582 is effective for business combinations for which the acquisition date is on or after the beginning of the first annual reporting period beginning on or after January 1, 2011. CICA 1601 and CICA 1602 apply to interim and annual consolidated financial statements relating to years beginning on or after January 1, 2011. Early adoption is permitted for these new standards. The Company does not expect the adoption of these sections to have a material impact on its consolidated financial statements.

#### **b) International Financial Reporting Standards**

Effective May 1, 2011, the Company’s primary basis of accounting will change to International Financial Reporting Standards.

### **NOTE 5 – SHARE SUBSCRIPTION RECEIPTS IN TRANSIT**

On April 28, 2010, the Company issued 2,425,444 common shares at \$0.09 per share pursuant to a private placement which the Company’s lawyer was holding against payments in transit of \$218,290. The full amount was received during the nine months ended January 31, 2011.

In addition, there is reserved to GWN a 1% net smelter return (“NSR”) which may be purchased at any time by Unity by paying GWN \$1,000,000 less all amounts previously received by GWN as NSR payments.

The Company may exercise the Option by:

- a) paying Unity \$30,000 on or before September 26, 2010 (paid);
- b) making the Underlying Payments directly to GWN as outlined above; and
- c) incurring \$2,400,000 in exploration expenditures prior to February 22, 2014, including not less than \$200,000 on or before December 31, 2011.

### NOTE 8 – LOANS PAYABLE

During the nine months ended January 31, 2011, the Company arranged for loans totaling \$120,000 pursuant to loan agreements dated August 16, 2010. The loans have a term of one year maturing August 31, 2011 and bear interest at 12% per annum. Of the \$120,000 loan, \$60,000 is payable to a company controlled by an officer of the Company. During the nine months ended January 31, 2011, the Company paid \$6,634 (2010 - \$Nil) in interest on the loans.

#### **c) Escrow Shares**

As of January 31, 2011, the Company has 1,076,800 (April 30, 2010 - 109,245) common shares held in escrow. Pursuant to the escrow agreement dated July 7, 2010, 1,196,444 common shares of the Company were deposited in escrow in connection with the Company's Change of Business. In addition, a total of 260,000 stock options (120,000 at \$0.135 expiring February 18, 2015 and 140,000 at \$0.125 expiring April 17, 2015) and share purchase warrants to purchase up to 1,036,444 common shares of the Company at \$0.125 expiring April 28, 2011, are also subject to the escrow agreement. Under the escrow agreement, 10% of the escrowed securities were released from escrow following receipt of Exchange approval of the Change of Business. The remaining 90% of the securities will be released from escrow in increments of 15% every six months thereafter over a period of thirty six months. In the event the Company becomes a Tier 1 issuer of the Exchange, the escrow release schedule will be accelerated to 18 months.

On July 26, 2010, the 109,245 common shares held in escrow pursuant to another agreement were cancelled and returned to treasury.

#### **d) Stock Options**

The Company adopted an incentive stock option plan, which provides that the Board of Directors of the Company may from time to time, in its discretion, and in accordance with the Exchange requirements, grant to directors, officers, employees and consultants to the Company, non-transferable options to purchase common shares, provided that the number of common shares reserved for issuance will not exceed 10% of the issued and outstanding common shares of the Company. Stock options will be exercisable for a period of up to 5 years from the date of grant. Options granted during the year vested immediately. Options granted to investor relations vest in accordance with Exchange requirements.

### **NOTE 11 – RELATED PARTY TRANSACTIONS**

During the nine months ended January 31, 2011 and 2010, in addition to a related party transaction described in Note 8, the Company entered into the following transactions with directors, officers and companies controlled by them:

	2011	2010
	\$	\$
Management fees	19,500	-
Office, rent and administration	23,100	-
Legal fees	40,397	-
Interest paid	3,317	-
	<hr/>	
	86,314	-

---

Included in prepaid expenses were rent deposits of \$1,200 (April 30, 2010 - \$Nil) paid to companies with an officer in common.

Included in accounts payable and accrued liabilities was a legal fee of \$3,360 (April 30, 2010 - \$9,800) payable to a company controlled by an officer of the Company.

These transactions are in the normal course of business operations and are measured at the exchange amount, which is the amount of consideration established and agreed to by the related parties.

### **NOTE 12 – FINANCIAL INSTRUMENTS**

The Company manages its exposure to financial risks, including foreign exchange risk and interest rate risk, based on a framework to protect itself against adverse rate movements. All transactions undertaken are to support the Company's ongoing business and the Company does not acquire or issue derivative financial instruments for trading or speculative purposes. The Company's Board of Directors oversees management's risk management practices.

As at January 31, 2011, the Company's financial instruments consist of cash and cash equivalents, amounts receivable, accounts payable and accrued liabilities and loans payable.

Cash and cash equivalents are designated as held-for-trading and carried at their fair values. Amounts receivable is classified as a loan and receivable and carried at its amortized cost. Accounts payable and accrued liabilities and loans payable are classified as other financial liabilities and carried at their amortized cost.

The fair values of these financial instruments approximate their carrying values due to their short-term nature and/or the existence of market related interest rate on the instruments.

### **NOTE 12 – FINANCIAL INSTRUMENTS (Continued)**

The risk exposure is summarized as follows:

#### **a) Credit Risk**

Credit risk is the risk of an unexpected loss if a customer or third party to a financial instrument fails to meet its contractual obligations. The Company is subject to credit risk on the cash balances at the bank, its short-term bank guaranteed investment certificates and amounts receivable. Cash and cash equivalents consisting of Guaranteed Investment Certificates (“GICs”) have been invested with Schedule 1 banks or equivalents, with its cash held in Canadian based banking institutions, authorized under the Bank Act to accept deposits, which may be eligible for deposit insurance provided by the Canadian Deposit Insurance Corporation. The amounts receivable consist primarily of harmonized sales tax recoverable of \$33,020 and interest receivable of \$661.

#### **b) Liquidity Risk**

The Company’s approach to managing liquidity is to ensure that it will have sufficient liquidity to settle obligations and liabilities when due. As at January 31, 2011, the Company had cash and cash equivalents of \$256,923 to settle current liabilities of \$136,540 which consist of accounts payable that are considered short term and settled within 30 days and interest bearing loans which shall be repaid on or before August 31, 2011. The Company believes that it has sufficient capital and additional financing will be available to meet its requirements for the next twelve months.

#### **c) Market Risk**

##### **(i) Interest Rate Risk**

Interest rate risk is the risk that the fair value or future cash flows of a financial instrument will fluctuate because of changes in market interest rates.

The Company’s cash and cash equivalents attract interest at floating rates and have maturities of 90 days or less. The Company’s short-term investment is invested in GICs with greater than 90 day terms but not greater than one year. These GICs have a fixed interest rate for the term of the deposit. The interest on cash and GICs is typical of Canadian banking rates, which are low at present and the conservative investment strategy mitigates the risk of deterioration to the investment. A change of 100 basis points in the interest rates would not be material to the financial statements.

##### **(ii) Commodity Price Risk**

Commodity price risk is the risk of financial loss resulting from movements in the price of the Company’s commodity inputs and outputs. The Company’s risk relates primarily to the expected output to be produced at its resource property described in Note 7 of these financial statements of which production is not expected in the near future.

### **NOTE 13 – CAPITAL MANAGEMENT**

In the management of capital, the Company includes the components of shareholders' equity, as well as cash.

The Company's objectives when managing capital are: to safeguard its ability to continue as a going concern; to pursue the development of a business interest; and to maintain a flexible capital structure which optimizes the cost of capital within a framework of acceptable risk.

The Company manages its capital structure and makes adjustments to it in light of changes in economic conditions and the risk characteristics of the underlying assets. To maintain or improve its liquidity, the Company will have to issue new shares, issue new debt, or, acquire or dispose of assets all in the effort to optimize liquidity by raising or conserving cash.

The Company is dependent on the capital markets as its sole source of operating capital. Its capital resources are largely determined by the strength of the junior resource markets and by the status of the Company's projects in relation to these markets, and its ability to compete for investor support of its projects.

The Company is not subject to externally imposed capital requirements.

There were no changes in the Company's management of capital during the nine months ended January 31, 2011.
